DESIGNATION OF HIGHWAY TO ROTAN

A Committee from our Chamber of Commerce attended a Luncheon at Sweetwater last week honoring the Chairman of the Highway Commission, Mr. Harry Hines. Mr. Hines assured our committee that the Commission would give the above designation their early attention. Our Local Road Committee have in past week contacted by letter all the towns from Ft. Worth to Roswell, N. Mex.—asking their co-operation in getting the above designation. This road when completed would be the shortest route from Fort Worth to Roswell, New Mexico.

Our Publicity Committee and Civic Committee will soon get organized for work, and are already laying plans and welcome all worthwhile suggestions.

W. E. BENSON, Secretary.

TRAVIS DEAN FOR REPRESENTATIVE

TO THE VOTERS OF DISTRICT 115

As a candidate for the office of State Representative of the 115th District, I give you my qualifications for your consideration.

I am a native of this section of the country, having lived on a farm near Hamlin, Texas, for the first eighteen years of my life. I was graduated from Hamlin High School in 1925 and spent the two immediate succeeding years as a locomotive fireman, employed by the Orient Railway Company. The next four years I spent in college which was made possible by doing odd jobs before and after school hours. I have been employed as a teacher in the public schools of this section the past five years during which time I have pursued the study of law to acquaint myself with the laws of this state. At present I am employed as principal of the Tuxedo rural school. I am 29 years of age, married and have had enough experience to know that honesty and hard work are the guide posts in life. Various other public professions have led me to numerous social and economic inquiries, which, I feel have acquainted me with the needs of the average citizens from a "law protection standpoint."

If, after you have considered the applicants for this position, you will cast your vote and elect me I promise to diligently and faithfully represent you to the best of my ability. I heartily endorse the following policies:

1. Submitting to the voters, for their approval, a plan to adopt a unicameral type of legislature or a plan to reduce the membership in the House of Representatives and Senate.
2. I believe in adopting a law whereby our legislators will be required to be available for business during a term of the legislature under the penalty of a salary dock.
3. I will support a measure reducing the expenditure in the administration of the public schools of the state and applying the proceeds from such a measure to raise the salaries of the underpaid school teachers of the state. I believe this can be done without additional tax.
4. I endorse the old age pensions and favor the adoption of a state sponsored plan of unemployment and retirement insurance that will lead to a more stable economic and social security among the great mass of our laboring people.
5. I believe in abolishing certain bureaus and commissions but I am not opposed to the creation of new ones if the circumstance warrants the necessity of such creation.
6. I favor the reduction in real estate and general property tax, and in the adoption of a plan of automobile registration tax according to the value of the vehicle.
7. I will support a plan that will allow the rural population of this state to purchase the equipment for rural electrification through the assistance of the federal and state governments.

These and other worthwhile policies I promise to work hard for and if the voters of this district see the occasion to elect me to this office.

Sincerely yours,
TRAVIS B. DEAN.

Hundreds of persons will participate in the pageant, "Texas in the Making" which will be presented April 21 at Paris' Centennial year celebration.

HIGHWAY BEAUTIFICATION

The State Highway Department, assisted by the Citizens Organization for Highway Beautification have been very busy for the past few months getting Texas ready to receive the thousands and thousands of visitors who will be seeing our State for the first time in the next few months.

Here are a few of the things we hope to accomplish—have our gasoline stations attractive and in good shape, the dumping grounds gone from sight, city and town entrances cleaned up and beautified, the junk yards removed to side streets or well fenced, or screened by evergreen hedges, all public buildings in neat repair with well kept landscaped grounds surrounding them, especially do we appeal to the housewife and the school children to burn all waste paper so that it will not blow about to mar the beauty of our landscape. Also we are asking the citizenship of Texas to help us preserve all flowers, shrubs and trees on our highways. To remove the unsightly "bootleg" sign boards hanging on the citizens' fence lines just off the State Highway right-of-way, or nailed to trees, injuring them, to have the rural homes cleaned up and beautified, perhaps build attractive gate entrances from the highways to their property with the name of the place on the entrance, to see that all historic spots are beautified and marked. Last, but not least, to place many wayside parks along the highways that the tourist may draw aside from the traffic and rest, or perhaps prepare a meal and enjoy our Texas weather and landscape. When we have accomplished these things our State will be a comfortable, interesting and a beautiful place in which to travel.

But this cannot be accomplished without your cooperation. This is your State and I know you will want to have a part in this great work. Our slogan, "Clear Away All Unsightliness in Texas" should be talked in our school and every group in the State. Articles in our newspapers every week for the next few months, until the citizenship of Texas has become beautification conscious, would help. Native seeds and plants cost little and what could be more attractive on our rural and church grounds than groups of native cedars, Spanish Dagger, Sumache, Wild Plum and Agave, with a planting of Blue Bonnet, purple plum and other wild flower seed.

May we count on you?

Most sincerely,

MRS. JOHN DRESSEN,
Division Chairman of Citizens Organization of Highway Beautification.

Revival Meeting Starting Sunday at Methodist Church

Sunday, March 22nd, is the date of the beginning of the revival at the Methodist Church. Our Evangelists, Dr. O. H. Callis and Prof. E. Clay Milby will arrive Saturday evening and be in readiness for the eleven o'clock services Sunday. We feel that the community will enjoy both, the song services and the sermons. These men are outstanding in their line of work and should greatly assist us in our church work. We will appreciate your attendance upon these services regularly and believe that anyone will be well paid for his efforts.

The services will be held twice a day; Sundays, 11:00 A. M. and 7:45 P. M. On week days the services will be 10:00 A. M. and 7:30 P. M. A cordial invitation is extended to other churches when not having services of their own. Begin with the meeting Sunday and get the full benefit of every service.

DR. O. H. CALLIS

Our evangelists, Dr. O. H. Callis and Mr. E. Clay Milby, who will be with us for our revival Sunday, March 22nd, are from Kentucky. Dr. Callis' address is Wilmore, and Mr. Milby is from Greensburg. They have worked together for years and are each well prepared to do his part of the work.

MR. E. CLAY MILBY

Bro. Milby comes to us with the reputation of one of our best singers in the field and as a co-partner with Dr. Callis for some years. The Hamlin people will enjoy hearing these young men both in song service and in rich, scholarly, spiritual messages. We invite all people in Hamlin and vicinity, to avail themselves of this opportunity to hear delightful singing and helpful

messages. Our church has a unique office in that of General Evangelists. The requirements demanded of those who are sent out by this board are more rigid than those required of any other evangelists in the field. Dr. Callis has enjoyed being a member of this company of evangelists for some years. He thus comes to us by the authority of the Bishop of his conference. He enjoys the protection of the church through being assigned work as a General Evangelist in the Methodist Episcopal Church, South. Should he not be competent and in good standing this privilege would be denied him.

H. A. LONGINO, Pastor.

SAVE MONEY BY PAYING

APRIL 30, 1936, LAST DAY FOR PAYMENT OF HAMLIN SCHOOL TAXES WITHOUT PENALTY AND INTEREST

In compliance with the Texas State statutes, the Hamlin School Board has set the last day of next month (April 30, 1936) as the final date for the payment of unpaid taxes due the Hamlin Independent School District without penalty and interest.

We are asking for payment of Hamlin school taxes before April 30 for two reasons, viz:

1st—The Hamlin Independent School District is far behind in the payment of accumulated debts and must have money for payment on these debts.

2nd—The Hamlin School Board has been extremely lenient in the matter of school tax collections, and in conformity with this leniency has set the final date for the payment of school taxes without penalty or interest at a late date—April 30th.

Please help finance your schools by immediate payment of your school taxes.

Signed,
HAMLIN SCHOOL BOARD.

THE HERALD'S OWN 'REX' WAS KILLED

In all the 22 years the present owner of the Herald, has had but one "Office Mascot," in fact the only pet Ye Editor ever possessed, but Wednesday afternoon, our cherished pet looked up into our face, in his appealing manner, always when in trouble, and tried to tell us that some unprincipled human being had beguiled him to take a deadly poison.

Did you ever own a pet? Did you ever have a little Boston Bull Dog, whose whole life was a friendly smile, who always met friends and strangers alike with a smile, just a lively innocent chap? That was the Herald's first and only mascot—Rex. Why should anyone take a spite out on such a friendly, innocent little dog and end his life with a terrible poison? Did someone do it deliberately or carelessly? In either case it was a brutal, heartless, dastardly deed. Maybe you will smile at these words about a mere dog—but maybe you will not. It depends. One who never had a cherished pet will think that way, but not those who have had a cat or dog, that could understand and almost talk.

Sometimes dogs do get too numerous—the same is true of rats—but it seems reckless to scatter poison to kill, broadcast. He who does that might even get one of his own children. If you have once owned a dog with almost human ways, you will from henceforth be patient and kind to all dumb animals, especially that one who is the natural companion of man—the Dog. What we think about one who would deliberately poison a harmless little dog, can be expressed, but the language would not be permitted in the U. S. mails.

HIGHWAY OFFICER GIVES WARNING

This week the Herald was visited by an official of the Highway Department who ask that we give warning in this week's Herald concerning the bridge between Hamlin and Aspermont.

The complaint is this: He says that it seems the young people of Hamlin and Aspermont seem to think the New Bridge is for parties and a general play ground. The state will not stand for that. Groups of boys and girls have taken the bridge the past spring days, and fast traveling cars are not only hampered but they imperil the lives of those who may be loitering on the bridge structure.

The Highway Department is attempting to utilize the few beauty spots along the way for small parks where people may play, and they want you to enjoy the park as a play place. They request, for YOUR SAFETY, as well as the safety of Highway travelers, that you do not park cars on the bridge and that you do not use it as a play ground.

It now remains to be seen which town will have the honors of getting the first arrest for "trespassing." Tell your daddies to be ready to go your bonds.

Keep a Good Laxative always in your home

Among the necessities of home is a good, reliable laxative. Don't be without one! Do your best to prevent constipation. Don't neglect it when you feel any of its disagreeable symptoms coming on. "We have used Thedford's Black-Draught for 21 years and have found it a very useful medicine that every family ought to have in their home," writes Mrs. Perry Hicks, of Belton, Texas. "I take Black-Draught for biliousness, constipation and other ills where a good laxative or purgative is needed. I have always found Black-Draught gives good results."

SENIORS APPRECIATE COURTESY

The Seniors wish to express their appreciation to Mrs. B. S. Ferguson for the offer which she has been making to pupils of the High School, Grammar School and Primary Departments. To the boy and girl making the highest six weeks average in each class, Mrs. Ferguson is giving a pass for one week to the Ferguson Theatre. This offer has stimulated quite an interest in making good grades, for any student would be proud of such a splendid gift. This honor can come only once to a pupil during the year. Then it can be passed on to someone else. Betty Myrtle Routh and Gwyn Davis received the first passes in the Senior class. Avalene Murphree and W. B. Teague received the second passes. Carolyn Greenway and J. W. Brunson won the passes for the third six weeks.

The Seniors give Mrs. Ferguson three cheers.

A BEAUTIFUL BEAUTY PARLOR—THAT

Last week the Herald carried an announcement that the Magee Beauty Parlor was to be moved into new quarters. This week, WE, a mere man, ventured into this "beauty parlor" to make sure the art work was all that we had heard. It WAS. Really, Mrs. Magee and her daughter, Miss Kathryn, do deserve the compliments of all their friends on their many improvements. Many modern and new-fangled "do dads", the names of which we could not learn in our timidity, and could not remember had we been told their names, have been added. They may be all OK for a woman but not for a mere man. The best way to see and understand, is to go.

is any oil any different?

Different because it's

alloyed

We don't mean one of those "talking point" differences. We mean a real difference. Alloying Germ Processed oil goes beyond refining and re-refining. After every harmful element is cleaned out, the patented Conoco Germ Processing element is scientifically put IN.

That's what brings you this *alloyed* oil, with its strange attachment for pistons, cylinders, and all other engine parts—including every known type of bearing. All these parts really become *oil-plated*!

This oil-plating is extra. It's a plus—added to the tougher, more slippery, heat-beating Germ Processed oil film. You've got this high-durability oil film, sliding on thoroughly oil-plated surfaces, and so you're that much farther from wear and noise.

You're facing hotter days and harder runs. Out with dirty winter oil! Only the Conoco man can change you—quickly—to Germ Processed, the *alloyed* oil. Continental Oil Company.

M'CAULLEY NEWS

The farmers are waiting on a rain, most of them have their land in. A large crowd attended the play, "The Dutch Detective," given by the High School Seniors last Thursday night. We really do have a good, lively, jolly, group of Seniors, if you don't believe this, you ought to have seen their play. This play brought \$43.05 into the Senior treasurer.

Mr. and Mrs. Virgil Steele and children attended the Fat Stock Show at Fort Worth last week-end. They also visited Mr. Steele's parents and other relatives while away.

Ernest Webb and Melvin Hunter made a business trip to Abilene last week. They attended the Farmers co-operative gin association meeting. (so, they say, maybe they made a social call.)

We are all happy to see Ila Evans back in our community. She has been away several months for her health. Welcome back home, Ila.

We are sorry to report little Ruthie Lee Smith very ill with pneumonia. She is the daughter of one of our school-teachers.

Mr. and Mrs. W. Neighbor, of Lubbock, spent Sunday with relatives here.

Miss Elizabeth Hines had as her guests Sunday, a group of friends from Rule.

The pre-Easter revival will open at the Methodist Church Friday night, April 12th. Bro. O. B. Herrings will assist the pastor, Bro. Bateman in holding this meeting. Let us all remember this meeting in our prayers. They report Bro. Herrings as a fine preacher. Anyway, anyone who can tell the story of Jesus Christ to lost men, is a good preacher. We are hoping someone will be turned from the power of Satan into the path of light, for this may be the last revival some lost soul will attend. Let's pray much.

If you never made a mistake we want you to laugh, but if you have made a mistake, you will be very considerate of us reporters and look over our mistakes. Last week, we reported Miss Kenna Rector, sporting a V-8 Ford, but everyone says it is a Chevrolet.

The following girls of the Intermediate Sunday School class, along with their teacher, Mrs. A. A. Call-

way, enjoyed a picnic Saturday afternoon at the Highway Park, south of town: Misses Katy and Corrine Akins, Verna Lee Wishert, Mary Callaway, Hallie Faye Faulkenberry, Doorothy Mills and Frances Davison. Refreshments of cakes, fruits and sandwiches were served.

WHEN TO PRUNE SHRUBS

DENTON, March 19.—The time to prune depends upon the time the plant blooms. Early flowering plants bloom from buds formed on last summer's twigs. Examples of this group are Goldenbell or Forsythia, Vanhoutte's Spiraea, Lilacs, and Flowering Quince. Such plants should be pruned immediately after the blooming season is over and before twig growth begins. This is called summer pruning although the actual time of performing it may be May or June immediately after the plants are through flowering. If this pruning is delayed until winter and then last summer's twigs are pruned off before the flower buds appear in the spring there will be no bloom until the plant has had a year to make new twig growth and flower buds.

Late flowering plants first make new twig growth and on this new wood of the season the flowers appear later in the season. Examples of this group are Tea and Hybrid Tea Roses, Althaea or Rose-of-Sharon, and Anthony Waterer Spiraea. Such plants may be pruned at any time before growth starts in spring without danger of removing flower buds because they do not bloom from buds already formed on the old wood.

Should an early flowering shrub become too large or too tall for its situation in spite of gradual renewal, or through neglect, it may be necessary to cut it back quite severely losing thereby one season's bloom. If this is the case the operation should be delayed as late as possible; pruning in late winter or early spring before the new growth has begun. In fact, many shrubs of slender growth have a winter aspect almost as pleasing as through the summer. If a judicious choice is made in selecting shrubs for a given location rarely should it be necessary to cut back the plant enough to cause the entire loss of bloom. A careful first choice coupled with gradual renewal pruning ought to eliminate this trouble and

SEARCHING FOR?

A 1925 model car popping along is certainly a true picture of a "has-been." Contrast it with the streamlined models of today. Compare its performance. It fades out of the picture . . . outmoded and obsolete.

And so it is with gas ranges. In their manufacture science and engineering have wrought advancements just as striking as in the automobile industry. Appearance, structural details and performance have been radically improved, creating a new standard in a cooking appliance. Without this modern cooking appliance no kitchen—no matter how modern its architecture and other appointments may be—can truthfully be called modern unless its range is a truly modern gas range!

So go modern with a new gas range. You can afford to. Terms are surprisingly small. See the newest 1936 models now on display.

maintain satisfactory results.

It is also well to remember that any late summer pruning of shrubs or hedges is unsafe as the practice induces a new growth of wood that rarely becomes hardened enough to withstand severe winter weather. In such cases the tips of the branches and often the entire growth which the late pruning will be found dead or greatly weakened the following spring. August 15 is as late as it is safe to prune in most sections of Texas.

The memorial tower to be erected jointly by the national and state governments and the City of Houston to the honor of the Texans who fought at the Battle of San Jacinto, April 21, 1836, will be higher than the Washington monument. It will cost approximately \$1,000,000.

Visitors to Texas during the 1936 Centennial celebrations will be exempt for a period of 90 days from the state's new laws, providing that motor car drivers must be licensed.

Lady's Painful Trouble
Helped By Cardui

Why do so many women take Cardui for the relief of functional pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Hallsville, Texas, describes. She writes: "My health wasn't good. I suffered from cramping. My pain would be so intense it would nauseate me. I would just drag around, so sluggish and 'do-less.' My mother decided to give me Cardui. I began to mend. That tired, sluggish feeling was gone and the pains disappeared. I can't praise Cardui too highly because I know it helped me." . . . If Cardui does not help YOU, consult a physician.

A seven ton stone monument, erected a year ago on grounds of the Velasco coast guard station, marks the site of the Battle of Velasco, historic Texas event to be commemorated in Centennial observances this year.

AN EXPLANATION

Due to some misunderstanding that has developed the following is given in explanation:

Dr. Fred W. Ingvaldstad in mentioning the fact that he was formerly pastor of the First Methodist Church of Oklahoma City, in the announcement of his meeting here, had no desire to give the impression that he was a preacher in that church at the present time, as he made clear during the course of his lecture. He resigned voluntarily in January, 1935, due to a difference in views, and has been in the lecture field since.

He did not claim to have ever been a member of the Rotary Club at Oklahoma City, but was a member in the state of Colorado, where he now lives.
